PROFILE

Results-driven Frontend Developer with 2+ years of experience delivering high-performance web applications. Specialized in Angular and skilled in building scalable solutions. Key contributions include developing the frontend for a major onboarding system used by 4 leading banks and playing a key role in a payment gateway that handles 20,000+ transactions daily. Seeking to leverage expertise in User interface to contribute to Chinchin success.

PROFESSIONAL EXPERIENCE

Soluciones financieras chinchin, 2022 - now

Frontend Developer

- Contributed to over 10 Angular-based projects and 2 innovative multiplatform Flutter mobile applications, leveraging agile methodologies to deliver scalable and user-centric solutions.
- Played an important role in maintaining a high-performance payment gateway that processes over 20,000 transactions daily, ensuring seamless operations and contributing significantly to increased revenue.
- Developed 80% of the frontend for Chinchin's user onboarding system, now utilized by 4 leading Venezuelan banks to streamline customer integrations.
- Contributed significantly to modernizing the code architecture for 4 projects by aligning them with modern best practices; this initiative enhanced system reliability and cut monthly maintenance efforts by 50 hours.
- Engineered a comprehensive Angular library comprising over 50 reusable components and services, deployed across all company projects. This initiative reduced redundant development labor and standardized the codebase, driving efficiency and consistency throughout the organization.
- Resolved over 800 tasks and issues, streamlining workflows and boosting overall team efficiency.
- Mentored 3 frontend team members by providing comprehensive training on foundational concepts and critical role-specific skills, fostering their professional growth and integration into the team.
- Supplied help to the deployment process and conducted thorough production testing to ensure product quality, functionality, and successful launch in more than 4 projects.
- Collaborated with the UI team to refine interface designs, ensuring optimal user experience and alignment with best practices.
- Partnered with the backend team to optimize APIs, ensuring their efficiency, reliability, and alignment with project requirements; and reduced APIs response size by 50%.
- Enhanced cross-browser compatibility of projects, ensuring seamless functionality and a consistent user experience across 3 different platforms and devices.
- Managed up to 2 alternative branches of the same project simultaneously, ensuring seamless integration, version control, and efficient progress across parallel developments.
